

**School Climate Survey
Parent/Family Invitation**

Dear Parent/Family Member:

As we strive to ensure that all schools provide a safe and healthy learning environment for our students, we want to learn more about your experiences as a parent or caretaker of a student in the Jamestown Public Schools.

We send this letter as an invitation to participate in the ***School Climate Survey for Parents and Families***. The survey includes questions about your student's learning, school safety, and interpersonal relationships, as well as your perceptions of the school environment and your personal involvement in school. Your feedback will be very helpful in improving student engagement, learning conditions, and the overall school environment.

Beginning today, May 13, we invite all parents, guardians and caretakers to complete the ***School Climate Survey for Parents and Families***. Your responses are completely anonymous, and your name or personally identifiable information will not be collected.

As you respond to each survey item, please think about your own personal experiences as a parent, caregiver or guardian at your child's school. By participating in this survey, you will provide valuable insights that we can use to improve the climate and culture in our schools. Each school will use the survey results to develop strategies, procedures, and/or programs to enhance our school climate.

If you have children at multiple schools, you may complete a survey for each school, or you may choose the school where you would most like to share your voice. You can take the survey online using the following link: <http://www.jpsny.org/parentsurvey>

Please complete your survey response by **June 7**.

Thank you for your time, and we hope you will support our effort to ensure a safe and supportive learning environment for all students.
