I. INTRODUCTION

The Jamestown City School District and Board of Education are committed to maintaining a safe, respectful and orderly school environment where students receive a quality education free from disruption or interference. Responsible behavior by students, staff, parents, and visitors is essential to achieving this goal.

The District has established expectations for conduct on school property and at school functions. These expectations are based on the principles of civility, mutual respect, citizenship, character, tolerance, honesty and integrity. The District and the Board recognize the need to clearly define expectations for acceptable school conduct, to identify possible consequences of unacceptable behavior, and to ensure that discipline, when necessary, is administered promptly and fairly, keeping in mind that the goal is to correct misbehavior by teaching students that there are consequences to actions and choices.

To this end, the District and Board have adopted this Code of Conduct. The Code of Conduct applies to all students, staff, parents, and visitors when on school property, in attendance at a school function, or while riding school transportation.

The Code of Conduct will be made available for review on the District website and in the main office of each school and central administration building. Additionally, the District will provide a written summary of the Code of Conduct, written in plain language and to be distributed to all students in an age-appropriate version, to ensure that students understand the expected standards of respect and appropriate behavior.

The Dignity Act focuses on the prevention of discriminatory behaviors through the promotion of educational measures meant to positively impact school culture and climate.

School staff, students, parents and community members have a shared responsibility to maintain a climate of mutual respect and dignity where all students can expect a safe and supportive learning environment. Any person who is aware that a student has been the target of harassment, bullying (including cyberbullying) or discrimination, must report any alleged incidents to the building principal or DASA coordinator.

B. REPORTING & INVESTIGATION OF COMPLAINTS

1. School employees who witness harassment, bullying, and/or discrimination or receive an oral or written report of such acts shall promptly orally notify the principal, superintendent, or their designee not later than one school day after such employee witnesses or receives a report of such acts, and shall also file a written report with the principal, superintendent, or their designee no later than two school days after making an oral report.

2. The principal, superintendent or the principal's or superintendent's designee shall lead or supervise the thorough investigation of all reports of harassment, bullying and/or discrimination, and ensure that such investigation is completed promptly after receipt of any written reports.
3. When an investigation verifies a material incident of harassment, bullying, and/or discrimination, the superintendent, principal, or designee shall take prompt action, reasonably calculated to end the harassment, bullying, and/or discrimination, eliminate any hostile environment, create a more positive school culture and climate, prevent recurrence of the behavior, and ensure the safety of the student or students against whom such behavior was directed.
4. The principal, superintendent, or their designee shall promptly notify the appropriate local law enforcement agency when it is believed that any harassment, bullying or discrimination constitutes criminal conduct.
5. Pursuant to Education Law section 13, retaliation by any school employee or student shall be prohibited against any individual who, in good faith, reports or assists in the investigation of harassment, bullying, and/or discrimination.

C. DISCIPLINARY & REMEDIAL CONSEQUENCES

Students who are found to have violated the Dignity Act will be given a clear message that their actions are inappropriate, will not be tolerated, and are inconsistent with the concepts of tolerance, respect for others, and the fostering of civility in public schools.

If appropriate, disciplinary action shall be taken by the administration in accordance with this Code of Conduct. The response to a student's violation of the policy shall include both consequences and appropriate remedial responses designed to correct the problem behavior, prevent another occurrence of the behavior, and protect the target of the act.

Consequences for student who commit such acts of harassment, bullying and/or discrimination shall be unique to each individual incident and shall vary in method and severity according to the nature of the behavior, the developmental age of the student, the student's previous disciplinary record, and any extenuating circumstances. The focus of discipline shall be on discerning and correcting the reasons why discrimination, harassment, and bullying occurred. In addition, remedial responses should also be designed to correct the problem behavior, prevent another occurrence of the behavior, and protect the target of the act.

Appropriate remedial measures may include, but are not limited to:

- peer support groups;
- assignment of an adult mentor at school that the student checks in with at the beginning and end of each school day;
- corrective instruction that reemphasizes behavioral expectations or other relevant learning or service experience;
- supportive intervention and/or mediation where constructive conflict resolution is modeled;
- behavioral assessment or evaluation;
- behavioral management plans or behavior contracts, with benchmarks that are closely monitored;
- student counseling and parent conferences that focus on involving persons in parental relation in discipline issues.

V. STUDENT DRESS CODE

All students are expected to dress appropriately (and age-appropriately) for school and school functions. The dress code applies at any time that students are on District property. Students and their parents have the primary responsibility for acceptable student dress and appearance. Teachers and all other school personnel should exemplify and reinforce acceptable student dress and help students develop an understanding of appropriate appearance in the school setting.

A student's dress shall meet the following expectations:

1. Student dress must be safe, respectful, and responsible as to not disrupt or interfere with the educational process.
2. Headwear is not permitted unless mandated by verifiable religious requirements or verifiable medical reasons.
3. Tops must cover the torso and bottoms must cover the legs above mid-thigh. Undergarments must be covered.
4. Footwear must be worn at all times and appropriate to the activity. Footwear that is a safety hazard will not be allowed.
5. Clothing, including headwear, is not to include items that advocate violence, sex, profanity, drugs, alcohol, or tobacco, or that encourage illegal or violent activities.

The dress code shall not be construed to limit the ability of students to express their gender identity through clothing, jewelry, makeup, or nail color or styles, or to discipline students for doing so. Likewise, nothing in the dress code shall be construed to restrict students from wearing hairstyles as a trait historically associated with race (such as hair texture and protective hairstyles like braids, locks, and twists) or to discipline them for doing so.

Each building principal shall be responsible for informing all students and their parents of the student dress code at the beginning of the school year and any revisions to the dress code made during the school year. Jamestown Public Schools' dress code is subject to change upon new trends and information which applies to safety concerns.

Application of the dress code must be approached with careful consideration and sensitivity, with the goal of supporting students in reaching their full potential, not shaming or criminalizing them, and to minimize loss of instructional time. Staff, preferably those who have a positive relationship with the student, should privately address dress code violations with students, determine if there are factors impacting the student's ability to meet the dress code, and help address these issues.

Students who violate the student dress code may be required to modify their appearance by covering or removing the offending item, and if necessary or practical, replacing it with an acceptable item. Any student who refuses to do so may be subject to a consequence. Any student who repeatedly fails to comply with the dress code may be subject to further consequence.

VI. PROHIBITED STUDENT CONDUCT

The District expects all students to conduct themselves in an appropriate and civil manner, with proper regard for the rights and welfare of other students, district personnel and other members of the school community and for the care of school facilities and equipment.

The District recognizes the need to make its expectations for student conduct while on school property or engaged in a school function specific and clear. The rules of conduct listed below are intended to do that and focus on safety and respect for the rights and property of others.

G. Engage in any form of misbehavior otherwise prohibited by this section while on a school bus.

It is crucial for students to behave appropriately while riding on district buses, to ensure their safety and that of other passengers and to avoid distracting the bus driver. Students are expected to remain seated, keep objects and body parts inside the bus, and obey the directions from the bus driver or monitor. Students are required to conduct themselves on the bus in a manner consistent with established standards in a manner consistent with this Code of Conduct.

Examples of unacceptable behavior on school transportation may include but are not limited to:

1. failure to comply with directions from the bus driver or monitor
2. excessive noise

H. Engage in off-campus misbehavior that interferes with or can reasonably be expected to substantially disrupt the educational process in the school or a school function.

Such misbehavior may include fighting, threatening, or harassing students or school personnel through any means off-campus, including cyberbullying.

VII. REPORTING VIOLATIONS

All students are expected to promptly report and describe violations of the code of conduct to a teacher, school counselor, the building principal or designee. Any student observing a student possessing a weapon, alcohol or illegal substance on school property or at a school function shall report and describe this information immediately to a teacher, school counselor, the building principal, the principal's designee or the Superintendent of Schools. Students are prohibited from knowingly making false statements or knowingly submitting false information to school staff during a disciplinary process.

All district staff who are authorized to impose disciplinary consequences are expected to do so in a prompt, fair and lawful manner. District staff who are not authorized to impose disciplinary consequences are expected to promptly report violations of the code of conduct to their supervisor, who may in turn impose appropriate disciplinary consequences if so authorized, or refer the matter to a staff member who is authorized to impose an appropriate consequence.

Any weapon, alcohol or illegal substance found will be confiscated immediately, if possible, followed by notification to the parent of the student involved and the appropriate disciplinary consequences, which may include permanent suspension and referral for prosecution.

The building principal or designee must notify the appropriate local law enforcement agency of those code violations that constitute a crime and substantially affect the order or security of a school as soon as practicable, but in no event later than the close of business the day the principal or designee learns of the violation. The notification may be made by telephone, followed by a letter mailed on the same day as the telephone call is made. The notification must identify the student and explain the conduct that violated the code of conduct and allegedly constituted a crime. The principal must also notify the Superintendent of Schools of the information provided to the law enforcement agency.

VIII. DISCIPLINARY MEASURES

Consequences are most effective when they deal directly with the problem at the time and place it occurs, and in a way that students view as fair and impartial. School personnel who interact with students are expected to use disciplinary action only when necessary and to place emphasis on the students' ability to reflect on their choices and actions, correct the problem behavior, prevent another occurrence of the behavior, and grow in self-discipline.

Consequences and disciplinary action, when necessary, will be firm, fair and consistent so as to be the most effective in changing student behavior. In determining the appropriate disciplinary consequence, school personnel authorized to impose disciplinary consequences will consider the following:

- the student's age and developmental level;
- the nature and dangerousness of the offense and the circumstances that led to the offense;
- the motive and intent;
- as authorized by New York Education Law, the student's prior disciplinary record;
- the effectiveness of other forms of discipline;
- information from parents, teachers and/or others, as appropriate;
- the consideration of any mitigating or extenuating circumstances;
- restitution to any aggrieved person(s) or group(s);
- the consideration of victim's rights.

As a general rule, discipline will be progressive. This means that a student's first violation will usually merit a lighter consequence than subsequent violations. However, district staff are empowered to utilize the consequence most reasonably calculated to ensure the student learns from their behavior and engages in more pro-social behavior in the future. If the conduct is extremely serious or criminal in nature, school officials have the discretion to impose a more serious consequence or referral to law enforcement.

If the conduct of a student is related to a disability or suspected disability, the student will be referred to the Committee on Special Education and discipline, if warranted, will be administered consistent with the separate requirements of this code of conduct for disciplining students with a disability or presumed to have a disability. A student identified as having a disability will not be disciplined for behavior related to their disability, unless the discipline is consistent with the student's individualized education plan (IEP).

A. Interventions and Consequences

When choosing interventions and consequences of student behavior, teachers, administrators, and staff must balance the district's dual goals of eliminating school disruptions and maximizing student instructional time. Rather than a reliance on increasing punitive measures, the Board encourages practices that allow educators to address disciplinary matters as opportunities for learning.

Students who are found to have demonstrated inappropriate behavior may be subject to the following interventions or consequences, either alone or in combination. Consequences will be assigned consistent with the student's right to due process.

1. Classroom management strategies such as reteaching or reinforcement of desired behavior, individualized instruction, etc.
2. Oral warning, conference with student, caregiver contact, or loss of classroom privileges
3. Written notification to parents/guardians
4. Detention
5. Suspension from transportation
6. Suspension from athletic participation
7. Suspension from social and/or extracurricular activities
8. Suspension of other privileges
9. Referral to Planning Center
10. Referral to counselor for individual/small group counseling
11. Removal from classroom by teacher
12. In-school suspension (five days or less)
13. Short-term out-of-school suspension (five days or less)
14. Long-term out-of-school suspension (more than five days)
15. Permanent suspension from school

16. Referral to agency or program to address misconduct

17. Other remedies authorized by law or official designated by applicable statute or regulation.

B. Procedures

The amount of due process a student is entitled to receive before a consequence is imposed depends on the consequence being imposed. In all cases, regardless of the consequence imposed, the school personnel authorized to impose the consequence must inform the student of the alleged inappropriate behavior and must investigate, to the extent necessary, the facts surrounding the alleged misbehavior. All students will have an opportunity to present their version of the facts to the school personnel imposing the disciplinary consequence in connection with the imposition of the consequence.

Students who are to be given consequences other than an oral warning, written warning, or written notification to the parents are entitled to additional rights before the consequence is imposed. These additional rights are explained below.

1. Detention

Teachers and Principals may use detention as a consequence for student misbehavior in situations where removal from the classroom or suspension would be inappropriate. Detention will be imposed as a consequence only after the student's parent has been notified and the student has appropriate transportation.

2. Suspension from Transportation

If a student does not conduct himself/herself properly on a bus, the bus driver is expected to report the misbehavior to the Transportation Supervisor, who will bring the student's misbehavior to the attention of the principal. The principal will then notify the parent of the misconduct.

Students who become a serious disciplinary problem on school transportation may have their riding privileges suspended by the principal, superintendent or their designees. In such cases, the student's parent will become responsible for seeing that his or her child gets to and from school safely. Should the suspension from transportation amount to a suspension from attendance, the district will make appropriate arrangements to provide for the student's education.

A student subjected to a suspension from transportation is not entitled to a full hearing pursuant to Education Law §3214. However, the student and the student's parent will be provided with a reasonable opportunity for an informal conference with the principal or their designee to discuss the conduct and the consequence involved. Conduct that warrants short- or long-term suspension from school, as distinct from suspension from transportation alone, shall be handled in accordance with the applicable provisions of this Code for short-term and long-term suspensions.

3. Suspension from Athletic Participation, Extracurricular Activities and Other Privileges

A student subjected to a suspension from athletic participation, extracurricular activities or other privileges is not entitled to a full hearing pursuant to Education Law §3214. However, the student and the student's parent will be provided with a reasonable

opportunity for an informal conference with the district official imposing the suspension to discuss the conduct and the consequence involved.

4. Teacher Disciplinary Removal of Disruptive Students

A student's behavior can affect a teacher's ability to teach and can make it difficult for other students in the classroom to learn. In most instances the classroom teacher can correct a student's misbehavior and maintain or restore control over the classroom by using good classroom management techniques. These techniques may include practices that involve the teacher redirecting the student to give the student an opportunity to regain composure and self-control.

Teachers will first use interventions aimed at teaching appropriate and responsible behaviors so students can learn and demonstrate safe and respectful academic, social and emotional behavior. Examples of these include using affective statements, using affective questions, establishing relationships with students, giving positive directives that state expectations, and giving positive and specific feedback etc. When these strategies are not successful, the teacher may refer the student to the principal's office for the remainder of the class period.

On occasion, a student's behavior may become more disruptive than a teacher can manage. For purposes of this code of conduct, a disruptive student is a student who is substantially disruptive of the educational process or substantially interferes with the teacher's authority over the classroom. A substantial disruption of the educational process or substantial interference with a teacher's authority occurs when a student demonstrates a persistent unwillingness to comply with the teacher's instructions or repeatedly violates the teacher's classroom behavior rules.

A classroom teacher may remove a substantially disruptive student from class subject to the provisions of Education Law §3214. The teacher must explain to the student why they were removed from the classroom and give the student a chance to present their version of the relevant events within 24-hours. In addition, the teacher must meet with the principal or designee as soon as possible and no later than the end of the school day to explain the circumstances of the removal.

Within 24 hours after the student's removal, the Principal or designee must notify the student's parent that the student has been removed from class and why. The pupil and the person in parental relation shall, upon request, be given an opportunity for an informal conference with the principal to discuss the reasons for the removal. The informal hearing shall be held within forty-eight hours of the pupil's removal, or otherwise extended to the corresponding time on the second school day following the pupil's removal. The timing of the informal meeting may be extended by mutual agreement of the parent and Principal.

The Principal or designee may overturn the removal of the student from class if the Principal finds that the charges against the student are not supported by substantial evidence, that the student's removal is otherwise in violation of law, or that the conduct warrants suspension from school pursuant to Education Law §3214 and a suspension will be imposed.

Any disruptive student removed from the classroom by the classroom teacher will be offered continued educational programming and activities until they are permitted to return to the classroom.

Removal of a student with a disability, under certain circumstances, may constitute a change in the student's placement. Accordingly, no teacher may remove a student with a disability from class until they have verified with the Principal or the chairperson of the Committee on Special Education that the removal will not violate the student's rights under state or federal law or regulation.

5. In-school Suspension

The Board recognizes the school must balance the need for students to attend school and the need for order in the classroom to establish an environment conducive to learning. As such, the Board authorizes building principals and the superintendent to place students who would otherwise be suspended from school as a result of a code of conduct violation in "in-school suspension." Alternate instruction will be provided to the student for the duration of the suspension.

A student subjected to an in-school suspension is not entitled to a full hearing pursuant to Education Law §3214. However, the student and the student's parent will be provided with a reasonable opportunity, within a reasonable time, to speak with the district official imposing the in-school suspension from classes to discuss the conduct and the consequence involved.

6. Suspension from School

Suspension from school is a severe penalty, which may be imposed only upon students who are insubordinate, disorderly, violent or disruptive, or whose conduct otherwise endangers the safety, morals, health or welfare of others. Suspensions will be limited to students who pose an immediate or ongoing threat to oneself or others, who are repeatedly substantially disruptive, or for whom other consequences have not been effective. Suspensions will be used to the minimum degree necessary to promote improved student behavior and maximize student attendance.

The Board retains its authority to suspend students, but places primary responsibility for the suspension of students with the superintendent and the building principals. All staff members must immediately report and refer a violent or disruptive student to the principal for a violation of the code of conduct. All recommendations and referrals will be made in writing unless the conditions underlying the referral warrant immediate attention. In such cases a written report is to be prepared as soon as possible by the staff member following the incident. The principal, with the assistance of their designees, upon receiving a referral that could lead to a suspension will gather the facts relevant to the matter and record them for subsequent presentation, if necessary.

a. Suspensions of Five Days or Less

When the principal (referred to as the "suspending authority") proposes to suspend a student charged with misconduct for five days or less pursuant to Education Law §3214(3), the suspending authority must immediately notify the student orally. If the student denies the misbehavior, the suspending authority must provide an explanation of the basis for the proposed suspension. The suspending authority must also notify the student's parents in writing that the student may be suspended from school. The written notice must be provided by personal delivery, express mail delivery, or some other means that is reasonably calculated to assure receipt of the notice within 24 hours of the decision to propose suspension at the last known address for the parents.

Where possible, notice should also be provided by telephone if the school has been provided with a telephone number(s) for the purpose of contacting the parents.

The notice will provide a description of the charges against the student and the incident for which suspension is proposed and will inform the parents of the right to request an immediate informal conference with the principal. Both the notice and informal conference will be in the dominant language or mode of communication used by the parents. At the conference, the parents will be permitted to ask questions of complaining witnesses under such procedures as the principal may establish.

The notice and opportunity for an informal conference will take place before the student is suspended unless, in the sole discretion of the superintendent or principal, the student's presence in school poses a continuing danger to persons or property or an ongoing threat of disruption to the academic process. If the student's presence does pose such a danger or threat of disruption, the student, parent or guardian must be notified in writing and the notice and opportunity for an informal conference will take place as soon after the suspension as is reasonably practicable.

After the conference, the principal will promptly advise the parents in writing of his or her decision. The principal will advise the parents that if they are not satisfied with the decision and wish to pursue the matter, they must file a written appeal to the superintendent within five business days, unless they can show extraordinary circumstances precluding them from doing so.

The superintendent will issue a written decision regarding the appeal within 10 business days of receiving the appeal. If the parents are not satisfied with the Superintendent's decision, they must file a written appeal to the Board with the District Clerk within 10 business days of the date of the superintendent's decision, unless they can show extraordinary circumstances precluding them from doing so. Final decisions of the Board may be appealed to the Commissioner of Education within 30 days of the decision.

b. Suspensions of More than Five Days

When the principal recommends that a suspension for more than five days may be warranted, he or she will give reasonable notice to the student and the student's parents of their right to a fair hearing. At the hearing the student may, at his/her expense, be represented by an attorney, if requested, and will have the right to question witnesses against him or her and the right to present witnesses and other evidence on his or her behalf.

The superintendent will personally hear and determine the proceeding or may, in his or her discretion, designate a hearing officer to conduct the hearing. The hearing officer will be authorized to administer oaths and to issue subpoenas in conjunction with the proceeding before him or her. A record of the hearing will be maintained, but no stenographic transcript will be required. A tape recording will be deemed a satisfactory record. The hearing officer will make findings of fact and recommendations as to the appropriate measure of discipline to the superintendent. The report of the hearing officer will be advisory only, and the superintendent may accept all or any part thereof.

An appeal of the decision of the superintendent may be made to the Board. The Board will make its decision based solely upon the record before it. All appeals to the Board

must be in writing and submitted to the district clerk within 10 business days of the date of the superintendent's decision, unless the parents can show that extraordinary circumstances preclude them from doing so. The Board may adopt in whole or in part the decision of the superintendent. Final decisions of the Board may be appealed to the Commissioner of Education within 30 days of the decision.

c. Permanent Suspension

Permanent suspension is reserved for extraordinary circumstances such as where a student's conduct poses a life-threatening danger to the safety and well-being of other students, school personnel or any other person lawfully on school property or attending a school function. The procedures for permanent suspension are the same as those for a long-term suspension as defined above.

d. Procedure After Suspension

The Board may condition a student's early return from suspension on the student's voluntary participation in counseling or specialized classes, such as anger management or dispute resolution. The Board retains discretion in offering this opportunity. If and when the student and/or parent/guardian agrees to this option, the terms and conditions will be specified in writing. However, if the student violates the agreed upon terms and conditions within a certain time period, the unserved portion of the suspension may be reimposed.

C. Minimum Periods of Suspension

1. Weapons

Any student, other than a student with a disability, found to be in possession of a weapon onto school property will be subject to suspension from school for at least one calendar year. Before being suspended, the student will have an opportunity for a hearing pursuant to Education Law §3214. The superintendent has the authority to modify the one-year suspension on a case-by case basis. In deciding whether to modify the penalty, the superintendent may consider the following:

- the student's age;
- the student's grade level;
- the student's intent;
- after guilt is determined, the student's prior disciplinary record;
- the superintendent's belief that other forms of discipline may be more effective;
- input from parents, teachers and/or others;
- other extenuating circumstances.

A student with a disability may be suspended for possessing a weapon on school property only in accordance with the requirements of state and federal law.

2. Violent Act

Any student, other than a student with a disability, who is found to have committed a violent act, other than bringing a weapon onto school property, or who is found to have used or threatened to use an instrument of violence on school property, will be subject to suspension from school for at least one day. If the proposed consequence is the minimum one-day suspension, the student and the student's parent/guardian will be given the same

notice and opportunity for an informal conference given to all students subject to a short-term suspension. If the proposed consequence exceeds a five-day suspension, the student and the student's parents will be given the same notice and opportunity for a hearing given to all students subject to a long-term suspension. The superintendent has the authority to modify the minimum one-day suspension on a case-by-case basis. In deciding whether to modify the consequence, the superintendent may consider the same factors considered in modifying a one-year suspension for possessing a weapon.

3. Students who are Repeatedly Substantially Disruptive of the Educational Process or Substantially Interferes with a Teacher's Authority over the Classroom

Any student, other than a student with a disability, who repeatedly is substantially disruptive of the educational process or substantially interferes with a teacher's authority over the classroom shall be subject to suspension from school for at least one day. For the purposes of this section, "repeatedly substantially disruptive" means engaging in conduct that results in the student being removed from the classroom by teacher(s) pursuant to Education Law §3214 (3-a) on four or more occasions during a semester. If the proposed consequence is the minimum one-day suspension, the student and the student's parent/guardian will be given the same notice and opportunity for an informal conference given to all students subject to a short-term suspension. If the proposed consequence is a five-day suspension, the student and the student's parents will be given the same notice and opportunity for a hearing given to all students subject to a long-term suspension. The superintendent has the authority to modify the minimum one-day suspension on a case-by-case basis. In deciding whether to modify the consequence, the superintendent may consider the same factors considered in modifying a one-year suspension for possessing a weapon.

D. Referrals

1. Planning Centers

Planning Centers are a proactive behavioral intervention. Planning Centers are designed to help students problem solve, develop appropriate school and classroom behaviors, and reduce the need for classroom removal. The Planning Center will provide social emotional and remedial support and interventions while students are supervised.

The Planning Center Aide assumes the role of a supportive resource to help students improve their conduct, develop their self-esteem, encourage them to achieve and behave positively; and to experience a respectful environment with firm behavioral expectations.

Students may be referred to the Planning Center through the building administrator in one of three ways:

- Self referral—a student who may be anxious about home, school or the community.
- Staff referral – right of removal, student safety, tutoring and/or class disruption.
- Parent referral – student safety or special arrangements.

2. Counseling

The principal may refer students to a school counselor for group or individual counseling as needed. The principal or other school official shall notify a student's parent if referral for private individual or family counseling is recommended.

The principal may also refer students for mental health counseling by a school psychologist or social worker and will notify the student's parent or guardian in a manner consistent with law and the regulations of the Commissioner of Education.

3. PINS Petitions

The district may file a PINS (person in need of supervision) petition in Family Court concerning any student under the age of 18 who demonstrates that he or she requires supervision and treatment by reason of:

- a. being habitually truant and not attending school as required by part one of Article 65 of the Education Law;
- b. being ungovernable, or habitually disobedient and beyond the lawful control of the school;
- c. engaging in prostitution in violation of Penal Law §230.00; or
- d. appearing to be a sexually exploited child under Social Services Law §447-a(1)(a), (c), or (d), but the student must consent to filing the PINS petition.

For items 'a' and 'b' above, when filing the petition, the district must describe the diversion efforts it has undertaken or services provided to the student, and the grounds for concluding that the allegations cannot be resolved without the petition.

4. Juvenile Delinquents and Juvenile Offenders

For students found to have brought either a weapon (as defined in 18 USC §930(g)(2) or firearm (as defined in 18 USC §921), the superintendent or his designee is required to make the following referrals:

- a. to the County Attorney for a juvenile delinquency proceeding before the Family Court, any student under the age of 16, except students age 14 or 15 who qualify for juvenile offender status under the Criminal Procedure Law 1.20(42); or
- b. to the appropriate law enforcement authorities, any student age 16 or older, and all students age 14 or 15 who qualify for juvenile offender status under the Criminal Procedure Law 1.20(42).

IX. ALTERNATIVE INSTRUCTION

When a student of any age is removed from class by a teacher or a student of compulsory attendance age is suspended from school pursuant to Education Law §3214, the district will take immediate steps to provide alternative means of instruction for the student. The Board of Education expects students, administrators, teachers and parents to make every effort to maintain student academic progress in the event of removal or suspension, and support student re-entry to the classroom at the conclusion of the disciplinary action.

X. DISCIPLINE OF STUDENTS WITH DISABILITIES

The Board of Education recognizes that it may be necessary to suspend, remove or otherwise discipline students with disabilities who violate the district's student code of conduct, and/or to temporarily remove a student with disabilities from their current placement because maintaining the student in that placement is substantially likely to result in injury to the student or to others. The Board expects that this will be a sparingly used option and staff will employ conflict resolution meetings, restitution to those harmed, and group, classroom, or community circles as appropriate for a particular student. Restorative practices will be the considered first in dealing with disciplinary issues, as long as the student with disabilities is able to meaningfully participate in the process and such practices are allowable under their IEP.

The Board also recognizes that students with disabilities deemed eligible for special education services under the IDEA and Article 89 of New York's Education Law enjoy certain procedural protections that school authorities must observe when they decide to suspend or remove them. Under certain conditions those protections extend, as well, to students not currently deemed to be a student with a disability but determined to be a student presumed to have a disability for discipline purposes.

Therefore, the Board is committed to ensuring that the district follows suspension and removal procedures that are consistent with those protections. The code of conduct for students is intended to afford students with disabilities and students presumed to have a disability for discipline purposes the express rights they enjoy under applicable law and regulations.

A. Definitions

For purposes of this portion of the code of conduct, and consistent with applicable law and regulations, the following definitions will apply:

1. *Behavioral intervention plan* (BIP) means a plan that is based on the results of a functional behavioral assessment and that, at a minimum, includes a description of the problem behavior, global and specific hypotheses as to why the problem behavior occurs, and intervention strategies that include positive behavioral supports and services to address the behavior.
2. *Controlled substance* means a drug or other substance abuse identified under schedule I, II, III, IV, or V in section 202(c) of the Controlled Substances Act (21 USC § 812(c)).
3. *Disciplinary change in placement* means a suspension or removal from a student's current educational placement that is either:
 - a. For more than 10 consecutive school days; or
 - b. For a period of 10 consecutive school days or less if the student is subjected to a series of suspensions or removals that constitute a pattern because they cumulate to more than 10 school days in a school year, because the student's behavior is substantially similar to the student's behavior in previous incidents that resulted in the series of removals, and because of such additional factors as the length of each suspension or removal, the total amount of time the student has been removed and the proximity of the suspensions or removals to one another.
4. *Illegal drug* means a controlled substance, but does not include a controlled substance legally possessed or used under the supervision of a licensed health-care professional, or a substance that is otherwise legally possessed or used under the authority of the Controlled Substances Act or under any other provision of federal law.

5. *Interim alternative educational setting (IAES)* means a temporary educational placement, other than the student's current placement at the time the behavior precipitating the IAES placement occurred. An IAES must allow a student to continue to receive educational services that enable them to continue to participate in the general curriculum and progress toward meeting the goals set out in the student's individualized education program; as well as to receive, as appropriate, a functional behavioral assessment and behavioral intervention services and modifications designed to address the behavior violation so that it does not recur.
6. *Manifestation review* means a review of the relationship between the student's disability and the behavior subject to disciplinary action required when the disciplinary action results in a disciplinary change of placement, and conducted in accordance with requirements set forth later in this policy.
7. *Manifestation team* means a district representative knowledgeable about the student and the interpretation of information about child behavior, the parent, and relevant members of the committee on special education as determined by the parent and the district.
8. *Removal* means a removal of a student with a disability for disciplinary reasons from their current educational placement, other than a suspension; and a change in the placement of a student with a disability to an IAES.
9. *School day* means any day, including a partial day, that students are in attendance at school for instructional purposes.
10. *Serious bodily injury* means bodily injury which involves a substantial risk of death, extreme physical pain, protracted obvious disfigurement or protracted loss or impairment of the function of a bodily member, organ or mental faculty.
11. *Student presumed to have a disability for discipline purposes* means a student who, under the conditions set forth later in this policy, the district is deemed to have had knowledge was a student with a disability before the behavior that precipitated the disciplinary action.
12. *Suspension* means a suspension pursuant to §3214 of New York's Education Law.
13. *Weapon* means the same as the term "dangerous weapon" under 18 USC §930(g)(2) which includes a weapon, device, instrument, material or substance, animate or inanimate, that is used for, or is readily capable of causing death or serious bodily injury, except a pocket knife with a blade of less than two and one-half inches in length.

B. Authority of School Personnel to Suspend or Remove Students with Disabilities

The Board, District Superintendent, Superintendent of Schools or a Building Principal with authority to suspend students under the Education Law may order the placement of a student with a disability into an IAES, another setting or suspension for a period not to exceed five consecutive school days.

The Superintendent may, directly or upon the recommendation of a designated hearing officer, order the placement of a student with a disability into an IAES, another setting or suspension for a period not to exceed ten consecutive school days inclusive of any period in which the student has been suspended or removed for the same behavior pursuant to the above paragraph, if the Superintendent determines that the student's behavior warrants the suspension. The

Superintendent also may order additional suspensions of not more than ten consecutive school days in the same school year for separate incidents of misbehavior, as long as the suspensions do not constitute a disciplinary change of placement.

In addition, the Superintendent may order the placement of a student with a disability into an IAES, another setting or suspension for a period in excess of ten consecutive school days if the manifestation team determines that the student's behavior was not a manifestation of the student's disability. In such an instance, the Superintendent may discipline the student in the same manner and for the same duration as a non-disabled student.

Furthermore, the Superintendent may, directly or upon the recommendation of a designated hearing officer, order the placement of a student with a disability to an IAES to be determined by the committee on special education for a period of up to 45 school days if the student either:

- carries or possesses a weapon to or at school, on school premises or to a school function, or
- knowingly possesses or uses illegal drugs or sells or solicits the sale of a controlled substance while at school, on school premises or at a school function under the district's jurisdiction, or
- has inflicted serious bodily injury upon another person while at school, on school premises or at a school function under the district's jurisdiction.

The Superintendent may order the placement of a student with a disability to an IAES under such circumstances, whether or not the student's behavior is a manifestation of the student's disability. However, the committee on special education will determine the IAES.

C. Procedures for the Suspension or Removal of Students with Disabilities by School Personnel

1. In cases involving the suspension or removal of a student with a disability for a period of five consecutive school days or less, the student's parents or persons in parental relation to the student will be notified of the suspension and given an opportunity for an informal conference in accordance with the same procedures that apply to such short term suspensions of non-disabled students.
2. The suspension of students with disabilities for a period in excess of five school days will be subject to the same due process procedures applicable to non-disabled students, except that the student disciplinary hearing conducted by the Superintendent or a designated hearing officer will be bifurcated into a guilt phase and a penalty phase. Upon a finding of guilt, the Superintendent or the designated hearing officer will await notification of the determination by the manifestation team as to whether the student's behavior was a manifestation of their disability. The penalty phase of the hearing may proceed after receipt of that notification. If the manifestation team determined that the behavior was not a manifestation of the student's disability, the student may be disciplined in the same manner as a non-disabled student, except that they will continue to receive services as set forth below. However, if the behavior was deemed a manifestation of the student's disability, the hearing will be dismissed, unless the behavior involved concerned weapons, illegal drugs or controlled substances, or the infliction of serious bodily injury, in which case the student may still be placed in an IAES.

D. Limitation on Authority of School Personnel to Suspend or Remove Students with Disabilities

The imposition of a suspension or removal by authorized school personnel may not result in a disciplinary change of placement of a student with a disability that is based on a pattern of suspensions or removals as set forth above in the *Definitions* section of this policy, unless:

- the manifestation team determines that the student's behavior was not a manifestation of the student's disability, or
- the student is removed to an IAES for behavior involving weapons, illegal drugs or controlled substances, or the infliction of serious bodily injury as set forth above.

School personnel will consider any unique circumstances on a case-by-case basis when determining whether a disciplinary change in placement is appropriate for a student with a disability who violates the district's code of conduct.

In addition, school personnel may not suspend or remove a student with a disability in excess of the amount of time that a non-disabled student would be suspended for the same behavior.

E. Parental Notification of a Disciplinary Change of Placement

The district will provide the parents of a student with a disability notice of any decision to make a removal that constitutes a disciplinary change of placement because of a violation of the student code of conduct. Such notice will be accompanied by a copy of the procedural safeguards notice.

F. Authority of an Impartial Hearing Officer to Remove a Student with a Disability

An impartial hearing officer may order the placement of a student with a disability to an IAES for up to 45 school days at a time if they determine that maintaining the current placement of the student is substantially likely to result in injury to the student or to others. This authority applies whether or not the student's behavior is a manifestation of the student's disability.

G. Manifestation Review

A review of the relationship between a student's disability and the behavior subject to disciplinary action to determine if the conduct is a manifestation of the student's disability will be made by the manifestation team immediately, if possible, but in no case later than 10 school days after a decision is made by:

- the Superintendent to change the placement of a student to an IAES;
- an impartial hearing officer to place a student in an IAES; or
- the Board, the Superintendent, or Building Principal to impose a suspension that constitutes a disciplinary change in placement.

The manifestation team must determine that the student's conduct was a manifestation of the student's disability if it concludes that the conduct in question was either:

- caused by or had a direct or substantial relationship to the student's disability, or
- the direct result of the district's failure to implement the student's individualized education program.

The manifestation team must base its determination on a review all relevant information in the student's file including the student's individualized education program, any teacher observations, and any relevant information provided by the parents.

If the manifestation team determines that the student's conduct is a manifestation of the student's disability, the district will:

1. Have the committee on special education conduct a functional behavioral assessment of the student and implement a behavioral intervention plan, unless the district had already done so prior to the behavior that resulted in the disciplinary change of placement occurred. However, if the student already has a behavioral intervention plan, the CSE will review the plan and its implementation, and modify it as necessary to address the behavior.
2. Return the student to the placement from which they were removed, unless the change in placement was to an IAES for conduct involving weapons, illegal drugs or controlled substances or the infliction of serious bodily injury, or the parents and the district agree to a change in placement as part of the modification of the behavioral intervention plan.

If the manifestation team determines that the conduct in question was the direct result of the district's failure to implement the student's individualized education program, the district will take immediate steps to remedy those deficiencies.

H. Services for Students with Disabilities during Periods of Suspension or Removal

Students with disabilities who are suspended or removed from their current educational setting in accordance with the provisions of this policy and applicable law and regulation will continue to receive services as follows:

1. During suspensions or removals of up to 10 school days in a school year that do not constitute a disciplinary change in placement, the district will provide alternative instruction to students with disabilities of compulsory attendance age on the same basis as non-disabled students. Students with disabilities who are not of compulsory attendance age will receive services during such periods of suspension or removal only to the same extent as non-disabled students of the same age would if similarly suspended.
2. During subsequent suspensions or removals of up to 10 school days that in the aggregate total more than 10 school days in a school year but do not constitute a disciplinary change in placement, the district will provide students with disabilities services necessary to enable them to continue to participate in the general education curriculum and to progress toward meeting the goals set out in their respective individualized education program. School personnel, in consultation with at least one of the student's teachers, will determine the extent to which services are needed to comply with this requirement.

In addition, during such periods of suspension or removal the district will also provide students with disabilities services necessary for them to receive, as appropriate, a functional behavioral assessment, and behavioral intervention services and modifications designed to address the behavior violation so that it does not recur.

3. During suspensions or removals in excess of 10 school days in a school year that constitute a disciplinary change in placement, including placement in an IAES for behavior involving weapons, illegal drugs or controlled substances, or the infliction of serious bodily injury, the district will provide students with disabilities services necessary to enable them to

continue to participate in the general curriculum, to progress toward meeting the goals set out in their respective individualized education program, and to receive, as appropriate, a functional behavioral assessment, and behavioral intervention services and modifications designed to address the behavior violation so it does not recur.

In such an instance, the committee on special education will determine the appropriate services to be provided.

I. Students Presumed to Have a Disability for Discipline Purposes

The parent of a student who is facing disciplinary action but who was not identified as a student with a disability at the time of misbehaviors has the right to invoke any of the protections set forth in this policy in accordance with applicable law and regulations, if the district is deemed to have had knowledge that the student was a student with a disability before the behavior precipitating disciplinary action occurred and the student is therefore a student presumed to have a disability for discipline purposes.

If it is claimed that the district had such knowledge, it will be the responsibility of the Superintendent, Building Principal or other authorized school official imposing the suspension or removal in question for determining whether the student is a student presumed to have a disability for discipline purposes. The district will be deemed to have had such knowledge if:

- the student's parent expressed concern in writing to supervisory or administrative personnel, or to a teacher of the student that the student is in need of special education. Such expression may be oral if the parent does not know how to write or has a disability that prevents a written statement; or
- the student's parent has requested an evaluation of the student; or
- a teacher of the student or other school personnel has expressed specific concerns about a pattern of behavior demonstrated by the student, directly to the district's director of special education or other supervisory personnel.

Nonetheless, a student will not be considered a student presumed to have a disability for discipline purposes if notwithstanding the district's receipt of information supporting a claim that it had knowledge the student has a disability,

- the student's parent has not allowed an evaluation of the student; or
- the student's parent has refused services; or
- the District conducted an evaluation of the student and determined that the student is not a student with a disability.

If there is no basis for knowledge that the student is a student with a disability prior to taking disciplinary measures against the student, the student may be subjected to the same disciplinary measures as any other non-disabled student who engaged in comparable behaviors. However, if the district receives a request for an individual evaluation while the student is subjected to a disciplinary removal, the district will conduct an expedited evaluation of the student in accordance with applicable law and regulations. Until the expedited evaluation is completed, the student will remain in the educational placement determined by the district which can include suspension.

J. Expedited Due Process Hearings

The district will arrange for an expedited due process hearing upon receipt of or filing of a due process complaint notice for such a hearing by:

- the district to obtain an order of an impartial hearing officer placing a student with a disability in an IAES where school personnel maintain that it is dangerous for the student to be in their current educational placement;
- the district during the pendency of due process hearings where school personnel maintain that it is dangerous for the student to be in their current educational placement during such proceedings;
- the student's parent regarding a determination that the student's behavior was not a manifestation of the student's disability; or
- the student's parent relating to any decision regarding placement, including but not limited to any decision to place the student in an IAES.

The district will arrange for, and an impartial hearing officer will conduct, an expedited due process hearing in accordance with the procedures established in Commissioner's regulations. Those procedures include but are not limited to convening a resolution meeting, and initiating and completing the hearing within the timelines specified in those regulations.

When an expedited due process hearing has been requested because of a disciplinary change in placement, a manifestation determination, or because the district believes that maintaining the student in the current placement is likely to result in injury to the student or others, the student will remain in the IAES pending the decision of the impartial hearing officer or until the expiration of the period of removal, whichever occurs first unless the student's parent and the district agree otherwise.

K. Referral to Law Enforcement and Judicial Authorities

Consistent with its authority under applicable law and regulations, the district will report a crime committed by a student with a disability to appropriate law enforcement and judicial authorities. In such an instance, The Superintendent will ensure that copies of the special education and disciplinary records of the student are transmitted for consideration to the appropriate authorities to whom the crime is reported, to the extent that the transmission is permitted by the Family Educational Rights and Privacy Act (FERPA).

XIII. VISITORS TO THE SCHOOLS

The Board encourages parents and other district citizens to visit the district's schools and classrooms to observe the work of students, teachers and other staff. Since schools are a place of work and learning, however, certain limits must be set for such visits. The building principal or his or her designee is responsible for all persons in the building and on the grounds. For these reasons, the following rules apply to visitors to the schools:

1. Anyone who is not a regular staff member or student of the school will be considered a visitor.
2. All visitors to the school must enter through the designated single point of entry and report to the main office upon arrival at the school. They will be required to present photo identification, register in the main office and will be issued a visitor's identification badge, which must be worn at all times while in the school or on school grounds. The visitor must return the identification badge to the main office before leaving the building. Visitors who decline to provide valid identification may be denied entry to the building.
3. Visitors attending school functions that are open to the public after regular school hours, such as parent-teacher organization meetings or public gatherings, are not required to register.
4. Parents or citizens who wish to visit the school, classroom or school activity while school is in session must arrange such visits in advance with the building principal and, if applicable, classroom teacher(s) so that disruption is kept to a minimum.
5. Any unauthorized person on school property or any visitor who violates any provisions of this Code of Conduct will be reported to the principal or his or her designee. Unauthorized persons will be considered trespassers and asked to leave. The police may be called if the situation warrants.
6. All visitors are expected to abide by the expectations for public conduct on school property contained in this Code of Conduct. The principal may limit the access of any visitor on school property, including a parent, if that visitor's conduct disrupts the educational process or environment of the school.

XIV. PUBLIC CONDUCT ON SCHOOL PROPERTY

The Jamestown City School District is committed to providing a safe, welcoming, engaging, respectful and orderly environment that is conducive to learning. Members of the public are welcome and encouraged to support the educational process, extracurricular programs, and other school functions. In order to maintain this kind of environment, the public must also adhere to the expectations of the district. For the purposes of this section, “public” means all persons when on school property or attending a school function including students, teachers, and district personnel.

The expectations for public conduct on school property and at school functions are not intended to limit freedom of speech or peaceful assembly. The purpose of this code is to promote an environment that is conducive to learning, maintain public order and prevent infringement upon the rights of others. All persons on school property or attending any school function must conduct themselves in a safe, respectful and orderly manner.

A. Prohibited Conduct

No individual or group shall:

1. Intentionally injure any person or threaten to do so, or endanger the safety of themselves or others..
2. Intentionally damage or destroy district property or the personal property of a student, teacher, administrator, other district employee or any person lawfully on school property, including graffiti or arson.

INTERSCHOLASTIC ATHLETIC CODE

I. TRAINING RULES

A. PHILOSOPHY AND PURPOSE

The Jamestown Public School District recognizes that the use of certain substances such as tobacco, including chewing tobacco and snuff, alcohol, and other drugs (including performance enhancing drugs) is a significant health problem and illegal for many adolescents. This can have negative effects on behavior, learning, and the total development of each individual, which includes one's athletic abilities. Therefore, it is the philosophy of the Jamestown Public School District to absolutely forbid any athlete to use, possess, sell, or otherwise distribute these substances, or related paraphernalia. The Jamestown Athletic Code is in effect each sports season-24 hours per day, seven days a week, on and off school property.

B. RULES:

During the season of practice, a student-athlete shall not:

1. use, possess, or sell tobacco (which includes chewing tobacco and snuff or e-cigs).
2. use, possess, or sell a beverage containing alcohol.
3. use, possess, or sell marijuana or any other controlled substance.

C. REPORTING OF VIOLATIONS AND PROCEDURES TO BE FOLLOWED

During the period of an alleged violation and the subsequent investigation, the athlete will continue to participate as a member of the team, at the discretion of the principal and athletic director.

1. Witness credibility in this process is highly valued. Reports of alleged violations coming from the individuals listed a-d below having personally witnessed the violation will be investigated. The witness must submit to the principal a signed report outlining the alleged violations within three school days of the incident in question.
 - (a). Any district employee or school board member
 - (b). Any adult acting as a chaperone or assisting with a school activity at the request of a district employee
 - (c). Any law enforcement officer*, or agency*, or
 - (d). A parent/legal guardian of the student involved

*The school will take action within 3 days of the receipt of such information.

Upon report of an alleged violation of the rules, the principal shall immediately provide verbal notice, to the student and his/her parents/guardians that an investigation of the alleged incident is taking place. The reasons for the investigation and the possibility of suspension from the sport will be included in the notice.

The student and his/her parents will meet with the principal and other staff, as appropriate, within two (2) school days following the initial notification of the alleged violation. Those attending the meeting will be given the opportunity to question the information upon which the alleged violation is based, and to submit additional information or explanations. Once the principal and other staff, as appropriate, make a final determination in the matter, verbal and written notice will be given promptly to both student and parents/guardians.

2. If a student or other person not mentioned above who witnessed the incident brings accusations against a student, the Athletic Code will address the situation in the following manner:
 - (a). These reports will be considered by the principal, athletic director, and coach.
 - (b). They will determine if the alleged violation has validity.
 - (c). The report must come from a primary witness to the incident. Anonymous tips will not be considered.
 - (d). The coach, athletic director, and/or principal will confront the student-athlete on the alleged violation. If the student athlete agrees with the alleged violation, the Athletic Code will apply. If the student-athlete states that the alleged violation is false, the principal and athletic director will determine if the accusation has enough credibility to be brought before the "Athletic Code Committee/Athletic Appeal Board."

3. The Athletic Code Committee/Athletic Appeal Board will consist of three individuals: a principal or designee, a school counselor, and a coach appointed by the principal. The purpose of this committee is to investigate the alleged violation (interviews, statements, testimony, etc). All parties are entitled to be present and address the committee. The individual accused has the right to present witnesses, testimony, etc. The committee will then vote on the matter. At least two members of the committee must find the student-athlete guilty to apply the suspension. The individual votes of each member will be kept confidential.
4. Cooperation during investigation- The student-athlete shall be truthful, cooperative, and forthcoming with information. If the student-athlete does not cooperate, the principal and/or athletic director has within his/her authority to impose a greater level of consequence if it is determined that the student-athlete has lied, been deceptive or untruthful, prior to, or after the determination of guilt and/or consequences. A student-athlete who is uncooperative during an investigation may be suspended from play.

D. ENFORCEMENT

During a suspension, the athlete will continue to practice with the team. Attendance at games will be at the coach's discretion. Consequences for violating these training rules are as follows:

1. First offense – Suspension from competition will break down in the following manner and not carry over to the next sports season:

<u>Scheduled Contests</u>	<u>Games Suspended</u>
19 and above	3
11-18	2
10 or less	1

2. Second offense in the same school year – Suspension for the remainder of that season in which the athlete is currently participating and ½ of the next sports season in which he/she participates, which may go into a new school year.
3. Third offense in a school year – Suspension from all athletic teams for one calendar year beginning with the date of the infraction. During this suspension, the student will be involved in a program of Education and Awareness to include a minimum of three counseling and support sessions by the school psychologist or his or her designee. A written report will be sent to the principal assessing the depth of involvement with the abused substance and a determination of need for further counseling or rehabilitation.

E. SELF-REFERRAL

If a student-athlete seeks assistance, the coach and athletic director will assist the student-athlete in obtaining the professional help they need. Self-referral shall be viewed as a non-punitive offense. Confidentiality will be maintained unless the situation is life threatening. Self-referral cannot be used by the student-athlete to avoid the penalties of the Athletic Code.

F. SEVERITY OF THE VIOLATION

There is no distinction in the severity of the offense (example: one sip of alcohol is treated the same as intoxication). If the rules are broken in any manner the Athletic Code will be applied fairly and consistently.

II. ACADEMIC ELIGIBILITY

Coaches will regularly monitor the academic progress of their student-athletes in order to identify those who need extra help or intervention (see extra help policy below). At JHS, formal eligibility will be checked at the 1/3 point of the game schedule, 2/3 point of the game schedule, and end of the regular season to assess grades. Current marking period grades and overall course grades will be assessed. Student-athletes need to be at a passing mark for either grade to be considered passing. For modified athletics, formal eligibility checks takes place weekly.

A. EXTRA HELP POLICY

Coaches will check student-athlete grades weekly. Student-athletes who are failing a class are required to get extra help weekly. Student athlete will go for extra help for each course failed per marking period until passing. Any extra help received will be verified using the "Academic Eligibility Update Form." Examples of extra help are: seeing a teacher before or after school, Safari tutors during or after school, School Island, private tutor). When parents and students obtain qualified private tutors for extra help, both the private source and the teacher should sign the update form (teacher's signature indicates knowledge of the extra help obtained).

B. STUDENT-ATHLETES FAILING 1 CLASS

If the student is failing one subject, he/she must take measures to raise the grade to standard. If the student fails to receive extra help, he/she will be deemed ineligible. It is understood that failing one subject does not make an athlete ineligible as long as they are receiving extra help. If a student-athlete is failing only one class, they must get extra help weekly to remain eligible to compete. In addition, teachers should take the opportunity to keep parents apprised of student failure and efforts to improve.

C. STUDENT-ATHLETES FAILING 2 OR MORE CLASSES AT J.H.S.

If a student-athlete receives two or more failing grades (at a formal eligibility check), he/she will have two weeks to reduce the number of failing courses to one or less. If not, the student athlete will be ineligible to participate in any contest until such time that the coach receives written documentation from the teacher(s) that the student athlete is no longer failing more than one course. The coach will notify parents that students could be ineligible to play if their grades are not brought up to standard.

D. STUDENT-ATHLETES FAILING 2 OR MORE CLASSES IN MIDDLE SCHOOL

If a modified student-athlete receives is failing two or more classes, he/she is ineligible to compete in any games until such time that the coach receives written documentation from his/her teachers that the student-athlete is no longer failing more than one course.

E. STUDENTS WITH AN IEP OR 504 PLAN

Students with disabilities, pursuant to the Individuals with Disabilities Education Act, and/or Section 504 of the Rehabilitation Act, shall be afforded an equal opportunity to participate in interscholastic athletics. All of the eligibility requirements shall apply to students with disabilities in a manner equal to their non-disabled peers. To the extent required under law, the district is not required to offer any accommodations that would fundamentally alter the nature of an interscholastic athletic activity or pose an undue financial burden. Requests for accommodations shall be considered on a case-by-case basis (i.e.- a student who is adequately meeting their IEP goals may be determined to be eligible to participate in interschool athletics, which will be reviewed by district administrators).

III. STUDENT CITIZENSHIP

A. MAJOR FORMS OF DISCIPLINE

Every participant must be a good school and community citizen. Participants who are arrested or violate the rules of the Student/Parent Handbook of Jamestown Public Schools will be subject to consequences. NOTE: Student-athletes and their parents are under obligation to report an incident that they were involved in that resulted in their arrest. When a student-athlete is arrested during *or out-of-season*, the principal, athletic director, and coach will decide on consequences not specifically outlined in the athletic code.

B. MINOR FORMS OF DISCIPLINE

Coaches have the authority to discipline a student-athlete for violations of team rules (example: coming late to practice) or for other incidents not specifically covered by the training rules agreement. This necessary discipline is not to be taken lightly by either coach or student-athlete. Our philosophy is that student-athletes are an integral part of the total education program and every effort will be made to make each situation a learning one.

C. RESERVE CLAUSE

Building administrators reserve the right to rule on any other infraction not covered above that is related to athletic participation. If a student-athlete conducts himself or herself in a manner that is unbecoming of a team member, coaches and administrators reserve the right to suspend or remove an athlete from the team.

IV. ATHLETIC APPEAL PROCESS

The student-athlete and/or parent have the right to appeal any determination made by the principal, athletic director, and coach to an appeal board. Such an appeal must be made in writing to the athletic director or principal within three (3) school days of the suspension or dismissal. The appeal must state reasons for the appeal with emphasis given to due process violations or the availability of new evidence. Athletes who decide to appeal can continue to practice and/or participate in all games during the time period that the appeals process takes place.

The Athletic Code Committee/Athletic Appeal Board will consist of three individuals: a principal or designee, a school counselor appointed by the principal, and a coach appointed by the principal. All parties are entitled to be present and address the Athletic Code Committee/Athletic Appeal Board. The decision of the board will be made known to all parties. The penalty then could be increased, decreased, or remain the same. The decision will be made according to majority rule. However, the individual votes of each member will be kept confidential. No one who determined the initial guilt will be on the Athletic Code Committee/Athletic Appeal Board

V. ATHLETIC ATTENDANCE EXPECTATIONS

The school and the coaching staff feel it is vital for students to have excellent school attendance. Therefore, a student will not be allowed to participate in that day's practice or game if he/she:

- A. Is absent all day from school (with the exception of verified full day medical appointments, court appointments, funerals, college visits, or situations previously agreed upon, consistent with the attendance policy).
- B. Comes to school after 11:30 a.m. (with the exception of the above).
- C. Leaves school during the day (with the exception of the above).

VI. ATHLETIC TEAM TRANSPORTATION

Players are expected to ride the bus to and from athletic events. Please note the following regulations pertaining to transportation of students to and from away athletic events:

A. PARENTAL TRANSPORTATION CONSENT

If there are extenuating circumstances that necessitate an athlete riding home with his/her parent, the request must be approved by the proper authority in advance of the road trip. A note should be put on file explaining the problem and with whom the athlete will be traveling. Driving one's own car or riding with another student is never an option. It is understood that situations may occur during an athletic contest that allow the coach to excuse a player from accompanying the team home on the bus.

B. VIOLATIONS

If a student violates the rules as stated above, he/she may be suspended from upcoming games.

VII. ATHLETIC EQUIPMENT POLICY

Players are responsible for the equipment and uniform they have been issued. Players will be financially responsible for any item that they fail to turn in at the end of the season or return items in a condition unsuitable for future use. Players will not be allowed to participate in upcoming sports until uniform and equipment have been turned in or paid for by the student.

VIII. ATHLETE'S SUSPENSION FROM SCHOOL

An athlete who is placed on in-school suspension or out-of-school suspension will be considered suspended from all activities, including athletics, until reinstated. A student-athlete may resume participation when they have successfully completed their suspension.

IX. NCAA INITIAL-ELIGIBILITY CLEARINGHOUSE

Student-athletes who feel they may be eligible for an NCAA Division I or II scholarship can register for the clearinghouse online at http://web1.ncaa.org/ECWR2/NCAA_EMS/NCAA.jsp. The JHS school code is 332605. Our guidance department constantly updates our approved courses. A "Guide for the College-Bound Student-Athlete" can be picked up in the guidance office as well.

Concussions: The Invisible Injury

Student and Parent Information Sheet

CONCUSSION DEFINITION

A concussion is a reaction by the brain to a jolt or force that can be transmitted to the head by an impact or blow occurring anywhere on the body. Essentially a concussion results from the brain moving back and forth or twisting rapidly inside the skull.

FACTS ABOUT CONCUSSIONS ACCORDING TO THE CENTER FOR DISEASE CONTROL (CDC)

- An estimated 4 million people under age 19 sustain a head injury annually. Of these approximately 52,000 die and 275,000 are hospitalized.
- An estimated 300,000 sports and recreation related concussions occur each year.
- Students who have had at least one concussion are at increased risk for another concussion.

In New York State in 2009, approximately 50,500 children under the age of 19 visited the emergency room for a traumatic brain injury and of those approximately 3,000 were hospitalized.

REQUIREMENTS OF SCHOOL DISTRICTS

Education:

- Each school coach, physical education teacher, nurse, and athletic trainer will have to complete an approved course on concussion management on a biennial basis, starting with the 2012-2013 school year.
 - * School coaches and physical education teachers must complete the CDC course. (www.cdc.gov/concussion/HeadsUp/online_training.html)
 - * School nurses and certified athletic trainers must complete the concussion course. (<http://preventingconcussions.org>)

Information:

- Provide concussion management information and sign off with any parental permission form.
- The concussion management and awareness information or the State Education Department's web site must be made available on the school web site, if one exists.

Removal from athletics:

- Require the immediate removal from athletic activities of any pupil that has or is believed to have sustained a mild traumatic brain injury.
- No pupils will be allowed to resume athletic activity until they have been symptom free for 24 hours and have been evaluated by and received written and signed authorization from a licensed physician. For interscholastic athletics, clearance must come from the school medical director.
 - * Such authorization must be kept in the pupil's permanent health record.
 - * Schools shall follow directives issued by the pupil's treating physician.

SYMPTOMS

Symptoms of a concussion are the result of a temporary change in the brain's function. In most cases, the symptoms of a concussion generally resolve over a short period of time; however, in some cases, symptoms will last for weeks or longer. Children and adolescents are more susceptible to concussions and take longer than adults to recover.

It is imperative that any student who is suspected of having a concussion is removed from athletic activity (e.g. recess, PE class, sports) and remains out of such activities until evaluated and cleared to return to activity by a physician.

Symptoms include, but are not limited to:

- Decreased or absent memory of events prior to or immediately after the injury, or difficulty retaining new information
- Confusion or appears dazed
- Headache or head pressure
- Loss of consciousness
- Balance difficulties, dizziness, or clumsy movements
- Double or blurry vision
- Sensitivity to light and/or sound
- Nausea, vomiting and/or loss of appetite
- Irritability, sadness or other changes in personality
- Feeling sluggish, foggy or light-headed
- Concentration or focusing problems
- Drowsiness
- Fatigue and/or sleep issues – sleeping more or less than usual

Students who develop any of the following signs, or if signs and symptoms worsen, should be seen and evaluated immediately at the nearest hospital emergency room.

- Headaches that worsen
- Seizures
- Looks drowsy and/or cannot be awakened
- Repeated vomiting
- Slurred speech
- Unable to recognize people or places
- Weakness or numbing in arms or legs, facial drooping
- Unsteady gait
- Change in pupil size in one eye
- Significant irritability
- Any loss of consciousness
- Suspicion for skull fracture: blood draining from ear or clear fluid from the nose

STATE EDUCATION DEPARTMENT'S GUIDANCE FOR CONCUSSION MANAGEMENT

Schools are advised to develop a written concussion management policy. A sample policy is available on the NYSPHSAA web site at www.nysphsaa.org. The policy should include:

- A commitment to reduce the risk of head injuries.
- A procedure and treatment plan developed by the district medical director.
- A procedure to ensure proper education for school nurses, certified athletic trainers, physical education teachers, and coaches.
- A procedure for a coordinated communication plan among appropriate staff.
- A procedure for periodic review of the concussion management program.

RETURN TO LEARN and RETURN TO PLAY PROTOCOLS

Cognitive Rest: Activities students should avoid include, but are not limited to, the following:

- Computers and video games
- Television viewing
- Texting
- Reading or writing
- Studying or homework
- Taking a test or completing significant projects
- Loud music
- Bright lights

Students may only be able to attend school for short periods of time. Accommodations may have to be made for missed tests and assignments.

Physical Rest: Activities students should avoid include, but are not limited to, the following:

- Contact and collision
- High speed, intense exercise and/or sports
- High risk for re-injury or impacts
- Any activity that results in an increased heart rate or increased head pressure

Return to Play Protocol once symptom free for 24 hours and cleared by School Medical Director:

Day 1: Low impact, non strenuous, light aerobic activity.

Day 2: Higher impact, higher exertion, moderate aerobic activity. No resistance training.

Day 3: Sport specific non-contact activity. Low resistance weight training with a spotter.

Day 4: Sport specific activity, non-contact drills. Higher resistance weight training with a spotter.

Day 5: Full contact training drills and intense aerobic activity.
